

# Dr. Rosing Use Cases: Using Digital Health Technologies to Provide Access to Care for At-Risk Populations

Last Modified on 11/17/2020 5:38 am EST

Dr. Mark Rosing, MD, MPH, FACOG, gets creative with digital health technologies to ensure access to high-quality care for at-risk populations in the Bronx, NY.

To learn more about how Dr. Rosing uses Tricefy for remote image access, real-time sonographer collaboration, secure archiving, reporting and specialist consultations, please click on the following link:
