

Are You Compliant?

Last Modified on 12/12/2022 12:39 pm EST

Data regulations and national laws require healthcare practices to have robust processes in place for handling and storing patient information. Is your practice compliant with your national law? How fast can you prepare for an audit?

Protect yourself and your patients. Get compliant with Tricefy Cloud PACS and keep all personal information safe.

Worry-Free 2023

Rest easy knowing you are compliant with Tricefy Cloud PACS:

- **Get Compliant.** Keep your data safe and secure with encrypted Long-Term Storage and Redundant Cloud Backup.
- **Improve Accessibility.** Access patient images, data and reports anytime, anywhere, on any device. Future Proof. Easily transfer your current PACS database to the Cloud. No need for onsite servers.
- **Get Organized.** Cloud PACS includes an easy-to-search database with a feature-rich DICOM Viewer.
- **Grow Your Network.** Easily share with outside physicians that can view medical images and clinical documents by accessing secure links.
